potts park

Welcome in potts park
with science center!

potts park is a **family friendly** park, because it emphasizes on adventures, that can be experienced **by the whole family**. Most of the ride attractions, like the family coaster “**potts Blitz**”, the flume ride “**pottwal**” and the road train “**potts park Express**” can also be used by kiddies accompanied by an adult person. The beautiful park like area invites the parents to relax, while the kiddies can work-off their extra energy in the playground area. Even the toilet site “**Up’n Pott**” is family friendly, especially its kiddie’s area. And the incredibly attractive **annual family ticket** reflects the family friendly pricing philosophy of potts park.

potts park is **creative**, because it combines in a very special way fun and games, general education, fast moving action and entertainment. potts park is the only family amusement park in Germany, that has very successfully included a science center as an added attraction to it’s general park attractions. Other innovative attractions are the “**Giant’s Flat**”, which was entered in to the Guinness’ book of records in 1983 and still isn’t topped, or the unique “**TURBO-Drachen**”.

potts park has a lot of **educational value**, because **playful learning** is a central aspect of the park’s philosophy. Here it is fun to **become smart**. In the “**Wasserspielgarten**” the guest pumps water without the help of electrical power, he is amazed when visiting one of the 130 different stations of the “**Terra phänomenalis**”, where he can watch his coloured shade, or is fascinated, when he climbs up the giant chairs in the “**Giant’s Flat**” and then feels like being a 2 year old child. Or he takes a ride on the “**Wasserläufer**” (water merry-go-round), or on the “**Bananenflug**” (swinging ship), or on the “**Jo-Jo**” and the “**Seepferdchen**” (merry-go-round), each of them giving him a different sensation of acceleration.

“Explain it and I will forget it. Show it to me and I will remember it. Let me try it and I will understand it.”
Lao-tse, 6th century B.C.

Bad weather cannot spoil the excitement! Aside from the “Terra phaenomenalis”, you will find on a few thousand square meters of **indoor area** a lot of exciting and interesting attractions, like the Giant’s Flat, the Kinderland and the Laser Show. You can even rent **open barbecue huts** for a small fee. Advance notice is required. You can download a rental form from the internet under: www.pottspark-minden.de --> *Gruppen* --> *Grillhütten*. Fun time forever. When is your “potts park day”?

| | 65 exit / pond terrace |

Good to know

Safety has priority at potts park. There are quite a few safety restrictions ordered by the TÜV in respect to size and age of the guests for some of the rides. Driving aptitude is a must to go on the Go-Cart ride. Some of the attractions **start operating** at 11 a.m. In the pre- or late-season and during bad weather, the park opening hours could be adapted to the circumstances. **Lost and found:** Information at the park entrance or at the “SB-Luftschißer”. When entering the park, the **park rules and regulations** are valid and must be adhered to.
